

And in a Similar Vein

Shared by Michael Carey (Memb. # 882 – Perfins Society [Great Britain])

Along with checks, stock certificates also are found with canceling perfins. The pictured example came to us roundabout from Great Britain. Michael Carey submitted it to Rosemary Smith, Editor of the Perfins Society's Bulletin. Rosemary e-mailed it on to me (your editor).

In his transmittal to Mrs. Smith Mr. Carey stated the following:

I don't know whether the interests of members of the Perfin Society stretch as far as Share Certificates, but I came across just such a Certificate for 100 Shares in The American Sugar Company dating from 1964 which had some perforated initials at both ends. I enclose photocopies of the obverse and the reverse of the certificate. The perfins include dates written the US way ie month. day. year. From the front of the Certificate :Left side: + 1 .15 .64 MTCO Right side F N + I 14 64 C
